Two Year warranty

GNB warrants to the original user, that Energystore GEL batteries will be free from defects in material and workmanship for a period of two years from the date of shipment. Installation should occur within three months of date of shipment.

Four Year Warranty

GNB further warrants to the original user, that Energystore GEL for four years from their date of shipment when used in accordance with the operating instructions and the following conditions as specified below.

Should GNB find that any cell is in breach of this warranty, it will repair or replace the cell, and allow a credit on a pro rata basis, of that portion of the warranty term remaining. The pro rata credit shall be based on the original purchase price of the cell and this credit will be applied to the normal list price of a replacement GNB battery at the time of claim.

Conditions

Warranty is applicable if the cell/ battery fails to meet the requirements when tested in accordance with IEC 896-2 and subject to following conditions.

- Maximum of one cycle per day 50% DOD at 25C and recharged fully there after before next discharge.
- Deep discharges (to 1.80vpc) to be limited to twice a year provided the batteries are fully recharged with in two days of such discharge.
- Maintenance and operations logs to be maintained as per the operating instructions and such records are made available for inspection by GNB.
- GNB to be advised immediately if any of the above parameters exceed the reportable limits.
- In the event of a warranty claim, only GNB or their authorised representatives to effect any evaluation and repairs on the batteries.
- This warranty is applicable on return to base basis.

Limitations on the Guarantee and Warranty:

In no event shall GNB be liable for consequential or incidental losses or damages. GNB further disclaims all implied warranties of merchantability and fitness.
